Soundtracks, by Jon Acuff- Many of us overthink, questioning our decisions to the point that we never do anything at all. If we do make a decision, our thoughts paralyze us with the fear of “what ifs” and self-doubt. It’s time to get rid of those old negative soundtracks and replace them with true, helpful, and kind soundtracks that lead to meaningful action. Revolutionize the way you think in this six-session series with bestselling author Jon Acuff.

Guarding Your Child's Heart, by Gary Smalley- Protect your children from destructive thoughts today and for a lifetime of tomorrows. Most people have 20,000 to 60,000 thoughts per day. And for Americans, more than half of those thoughts are negative. So how do you teach your children to guard their minds and hearts in today's society? This 12-session series from respected relationship expert Dr. Gary Smalley shows parents how they can teach their children to meditate and memorize key Scriptures that will build a foundation for leading a positive life.

Us In Mind: How Changing Your Thoughts Can Change Your Marriage, by Ted Lowe- Research shows happy couples think in a way unhappy couples don't. What if you could ensure your thoughts were setting you up to love well? You can. In this series, you will discover through Scripture, research, and neuroscience a simple way of rethinking your marriage. You will focus on just Five Thoughts which are designed to help you love well, even when it is not easy. Be assured this series is not a bunch of stuffy lectures. It's full of humor, real-life examples, and practical application. You can change your marriage by changing your thoughts, and it's simpler than you think.

Marriage & Mindsets, by Howard & Danielle Taylor- Does what you EXPERIENCE in marriage correlate with what you THINK about marriage? Does what you THINK about marriage, hinder or help what you DESIRE of marriage? In the Marriage & Mindsets series Howard and Danielle Taylor, the founders of Marriage on Deck, expose and expound on common limiting beliefs that become detrimental to the success of relationships if not checked. They classify five specific mindsets that can be overcome.
